

RIVER BEND INDUSTRIES

COMPANY OVERVIEW

River Bend Industries, LLC (RBI), designs and manufactures high-quality oil and gas production equipment supporting the upstream and midstream segments. Our engineered equipment meets the challenges and rigorous demands of production sites. With corporate headquarters located in Blanchard, Oklahoma, RBI's production facilities are situated on a 25-acre facility site. By fostering customer collaboration and investing in cutting-edge facilities, RBI plays a pivotal role in the energy sector.

MISSION

Our mission is to provide the highest-quality products to the Oil and Gas, Aerospace, Material Testing, Automotive, Military and Medical Industries utilizing and developing new technologies, progressive manufacturing processes and ethical business practices.

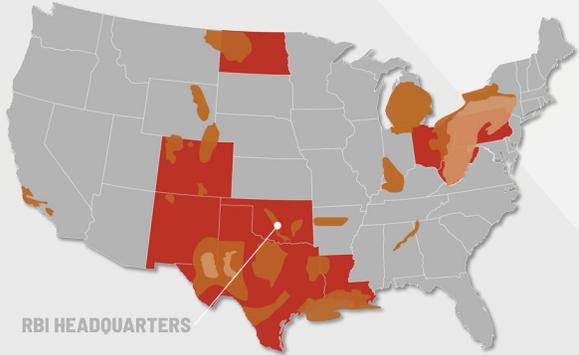

CORE COMPETENCIES

The RBI team collaborates with you from start to finish, ensuring a quick and accurate turnaround. We are supported by a highly skilled team of engineers and fabricators with decades of experience designing and manufacturing production equipment. We will quote your product/project based on your specifications or design a system tailored to your site conditions and production needs.
